**Foil Bar 24m to 18m Conversion**

**The foil bar is delivered with 24m lines and can be converted to 18m by removing the 6m extensions on front and back lines.**

If you want to fly your kite with 24m lines, no adjustments are needed.

If you want to fly your kite with 18m lines, you need to remove the 6m back line extensions below the pigtails of the backlines, as well as the 6m front line extensions below the safety pulley.
